

Utah Valley Business Q Magazine Recognizes Agel's Rapid Growth With The Startups To Watch Award

March 10, 2008

Agel distinguished itself from other companies with a 900 percent growth rate since day one of operations

Agel was recently spotlighted as a startup to watch company at the UV 50 Awards for achieving a rapid growth rate of 900 percent.

Utah Valley Business Q Magazine sponsored the award recognition and recognized Agel along with 45 other businesses. Agel was the only network marketing company that won an award at the reception.

"Agel was a no-brainer when it came to selecting our 10 Startups To Watch for the Business Q UV50. The company's staggering growth coupled with a unique product and an experienced management team are just a few of its 'watch-worthy' components," said Briana Stewart, managing editor of Business Q Magazine.
